- Amazon Web Services (Data Center) managed by Amazon Web Services located in US East (N. Virginia), US West (Oregon), United States of America
- Equinix (Data Center) managed by Equinix located in Singapore, Singapore
- Equinix (Data Center) managed by Equinix located in Sydney, Australia
- Equinix (Data Center) managed by Equinix located in Zurich, Switzerland
- Equinix (Data Center) managed by Equinix located in Amsterdam, Netherlands
- Equinix (Data Center) managed by Equinix located in Tokyo, Japan
- Equinix (Data Center) managed by Equinix located in Rio De Janeiro, Brazil
• Equinix (Data Center) managed by Equinix located in Toronto, Canada
• Google Cloud Platform (Data Center) managed by Google Cloud Platform located in Sydney, Australia
• Google Cloud Platform (Data Center) managed by Google Cloud Platform located in The Dalles, OR, United States of America
• Google Cloud Platform (Data Center) managed by Google Cloud Platform located in Moncks Corner, SC, United States of America
• Google Cloud Platform (Data Center) managed by Google Cloud Platform located in Montreal, Canada
• Google Cloud Platform (Data Center) managed by Google Cloud Platform located in Frankfurt, Germany
• Google Cloud Platform (Data Center) managed by Google Cloud Platform located in Mumbai, India
• Google Cloud Platform (Data Center) managed by Google Cloud Platform located in New Delhi, India
• Google Cloud Platform (Data Center) managed by Google Cloud Platform located in London, United Kingdom of Great Britain and Northern Ireland

The certification is valid for a period of two years assuming the following occurs. If any of these criteria are not met, HITRUST will perform an investigation to determine ongoing validity of the certification and reserves the right to revoke the Organization's certification.

• Annual progress is being made on areas identified in the Corrective Action Plan(s) (CAPs),

• No data security breach reportable to a federal or state agency by law or regulation has occurred within or affecting the assessed environment,

• No significant changes in the business or security policies, practices, controls, and processes have occurred that might impact its ability to meet the HITRUST Risk-based, 2-year (r2) certification criteria, and

• Timely completion of the HITRUST Interim Assessment for r2 Certification as defined in the HITRUST Assurance Program Requirements.

HITRUST has developed the HITRUST CSF, a certifiable framework that provides organizations with the needed structure, detail and clarity relating to information protection. With input from leading organizations, HITRUST identified a subset of the HITRUST CSF controls that an organization must meet to be HITRUST Risk-based, 2-year (r2) Certified. For certain HITRUST CSF controls that were not being met, the Organization developed a CAP that outlined its plans for meeting such controls.
HITRUST performed a quality assurance review to ensure that the control maturity scores were consistent with the results of testing performed by the Authorized External Assessor. Users of this letter can refer to the document Leveraging HITRUST Assessment Reports: A Guide for New Users for questions on interpreting this letter and can contact HITRUST customer support at support@hitrustalliance.net. Users of this letter are assumed to be familiar with and understand the services provided by the organization listed above, and what specific services are being used by the user organization.

A version of this letter with a more detailed scope description has also been issued by HITRUST which can also be requested from the organization listed above directly. A full HITRUST Validated Assessment Report has also been issued by HITRUST which can also be requested from the organization listed above directly. Additional information on the HITRUST Assurance Program can be found at the HITRUST website at https://hitrustalliance.net.
