

# RingCentral Contact Centre™ CRM integrations

Consolidated agent desktop for fast, personalised service

Customers want to be connected immediately to the right agent to solve their query. Agents want the right information at the right time to make their work easier. CRM integrations help you deliver on those expectations.

With quick and easy access to the tools and information they need, agents can handle more interactions in less time and deliver a more personalised service. Use your CRM data to identify customers and connect them to the ideal agent, improving first contact resolution, average handle time, and customer and agent satisfaction.

## Integrations with leading CRM systems

Deploy integrations for Salesforce, Microsoft Dynamics, Oracle Service Cloud, ServiceNow, Zendesk, SAP Cloud for Customer (C4C), NetSuite, SugarCRM, and Bullhorn in hours, and scale them as your business needs evolve.

Don't see your CRM listed above? No problem! We have partners who built additional off-the-shelf integrations to several key CRM providers. Beyond that, RingCentral can connect to almost any back-end system efficiently thanks to our APIs and professional services.

## Benefits

Personalised service with complete customer history and full context available at your agents' fingertips.

Increase agent efficiency with a consolidated interface that reduces effort and handle time.

Personalised customer experience based on current customer circumstances.

Make better decisions across all aspects of your business with unified reporting.

Deploy easily with a pre-built integration that installs quickly and scales flexibly.

Reduce training time as agents will be using a familiar interface: their CRM environment.

### Personalise every interaction

RingCentral Contact Centre integrations empower agents with a 360° view of data across the entire customer journey to understand who is contacting you and why.

- Deliver more personalised interactions that take less effort, make customers feel valued, and set your brand apart from the competition.
- Shorten average handle time by delivering all relevant customer information to the agent before the interaction begins.
- Increase your agents' satisfaction by empowering them to deliver better outcomes for customers and the business.
- Maximise your CRM ROI by using your CRM data to improve customer interactions in your contact centre.

### Increase agent efficiency

An integrated desktop gives your agents quick and easy access to the tools and information they need to handle more interactions in less time.

- Reduce agent effort with a unified CRM and contact centre desktop that eliminates the time spent navigating between separate applications.
- Streamline call handling with an integrated softphone and click-to-dial capabilities.
- Improve contact handle time by automatically delivering a holistic view of the customer's history directly to your agent's desktop so they can quickly determine the best action.
- Reduce after-call work by automatically updating your CRM with contact centre interactions data.

### Connect customers to the right resource

Use your CRM data to identify customers and route them to the best-suited resource.

- Increase customer satisfaction by routing queries to the right agent the first time.
- Improve average handle time and first contact resolution by reducing the number of transfers, consultations, and follow-up calls.
- Increase agent satisfaction by sending them queries to match their skill set.

## Make better decisions

Combine your contact centre data with your CRM for a holistic customer view that empowers you to make truly informed business decisions.

- Create holistic customer journey information by automatically synchronising data between your contact centre and CRM system.
- Empower agent self-management through performance and productivity reports.
- Improve the scope, quality, and accuracy of customer data by eliminating errors from manual updates so agents have the most current customer context.
- Empower agents with the most comprehensive and current customer insights

## Accelerate operational agility

Eliminate delays, costs, and risk with a tested, pre-built integration.

- Deploy in hours, not days or weeks.
- Eliminate the costs of building and maintaining custom-built integrations.
- Update and scale when it suits your schedule and business needs.
- Use your existing CRM investment and improve every contact centre interaction.

## RingCentral Contact Centre CRM integration capability matrix

Capability	Salesforce	Oracle	Microsoft Dynamics, ServiceNow, Zendesk	Bullhorn, NetSuite, SAP C4C, SugarCRM

RingCentral, Inc. (NYSE: RNG) is a leading provider of business cloud communications and contact centre solutions based on its Message Video Phone™ (MVP®) global platform. More flexible and cost effective than the on-premises PBX and video conferencing systems it replaces, RingCentral helps employees communicate across devices from wherever they are. RingCentral offers three key products. RingCentral MVP™ combines team messaging, video meetings, internet phone and other functionalities in a single interface. RingCentral Video®, along with its team messaging feature, enables Smart Video Meetings™. RingCentral Contact Centre™ gives companies the tools they need to connect with customers across channels. These are available on an open platform that integrates with hundreds of third-party apps and makes it simple to customise workflows. RingCentral is headquartered in Belmont, California, USA, and has offices around the world.
