

RingCentral

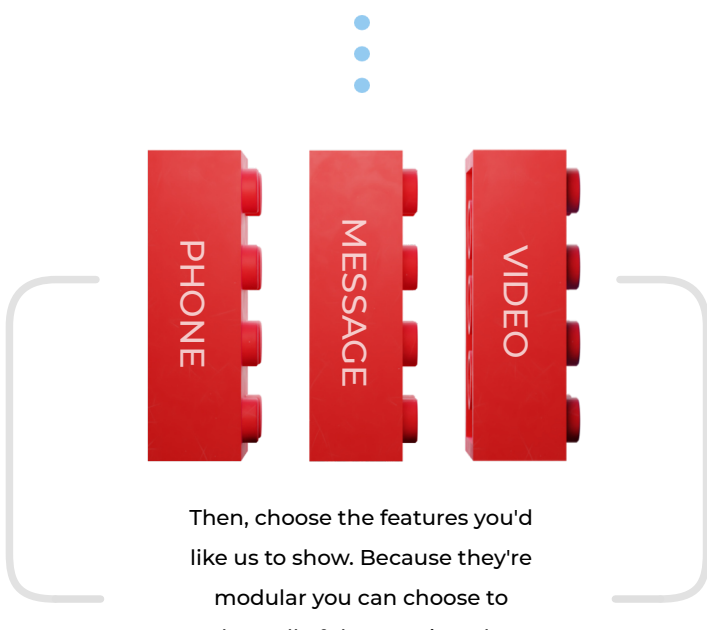

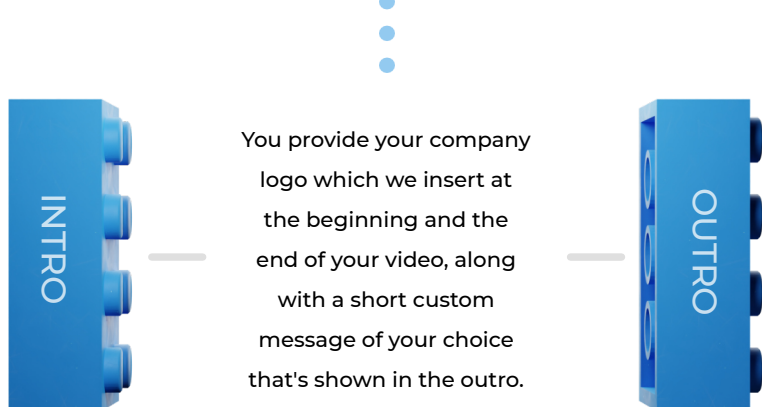

WELCOME VIDEO QUICK GUIDE

[OR CLICK HERE TO WATCH THE VIDEO](#)

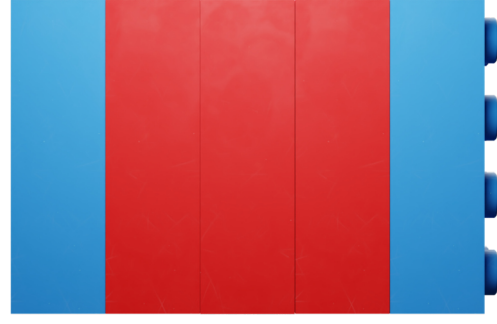

RingCentral Welcome videos are modular, customized high-level videos meant to give a simple introduction of our most popular features to your employees prior to launch.

Welcome Videos are composed of the intro, the outro and the three primary features of the RingCentral App.

Then, choose the features you'd like us to show. Because they're modular you can choose to show all of them, or just the ones your company plans to use.

In the end, you'll have a Welcome Video tailored to your company and your employees.
